

8. **OLD BUSINESS**

a. Water Quality Issues

2. Staff Reports

- i. Status of beach closings due to Enterococcus Bacteria and subsequent steps

2. Test Results

Laboratory ID	AC19009	Collection date and time	10/4/2007 10:31 AM
Location Code	SANIBEL	Sample Collector	ERIC BERRIS
Sample Description	Captive Sewer Plant Pine Island Sound E		
Analysis Code	Analyte Name	Result	Qualifier
ENTEROC	Enterococci by Membrane Filter, 100 mL	68	
		Units	MDL
		colonies/100mL	1
		Analysis Date	Analysis Time
		10/4/2007	2:10 PM
		Analysis Date	Analysis Time
		10/4/2007	EPA 1600
Laboratory ID	AC19010	Collection date and time	10/4/2007 11:01 AM
Location Code	SANIBEL	Sample Collector	ERIC BERRIS
Sample Description	Redfish Pass		
Analysis Code	Analyte Name	Result	Qualifier
ENTEROC	Enterococci by Membrane Filter, 100 mL	1	
		Units	MDL
		colonies/100mL	1
		Analysis Date	Analysis Time
		10/4/2007	2:10 PM
		Analysis Date	Analysis Time
		10/4/2007	EPA 1600

Qualifiers:

1 The value is less than, or equal to, the laboratory's practical quantitation limit (PQL) and greater than the minimum detection limit (MDL).

Unless noted otherwise, these test results meet all the requirements of the 2003 NELAC Standards. The results provided herein relate only to the samples cited on this report.

All questions regarding this report should be directed to Keith A. Kibbey, Laboratory Manager.
